

[Sample flier]

Seeking a great home for a special cat!

This handsome three-year-old neutered ginger tabby was found along a busy road searching for food. We would love to keep him, but our lease limits us to the two cats we already have, so we need to find him a new home quickly.

He's been examined by a vet, vaccinated, and tested for FIV and FeLV (both negative). Other than being thin, he's in good health, though he's currently on antibiotics for a bladder infection.

He is friendly and likes to play. He also loves to cuddle and sleep on your lap. He does not like loud noises, so he'd probably be happier in a quiet home with adults. He gets along with dogs and other cats, and likes to watch Animal Planet on TV!

Always try to include a photograph or two on your flier to get more attention for the cat you are trying to place.

If you're interested in adopting this kitty, please call 770-555-1234 or send an e-mail message to <myaddy@isp.com>. Adoption fee and interview required.
